

Association of Year Award Criteria

The National Skeet Shooting Association would like to recognize our member associations that have made considerable contributions to the sport of skeet shooting each year. Our membership, registered targets and youth programs continue to grow with the dedication and support of both state and zone associations around the nation, and the world.

In order to be nominated for NSSA Association of the Year, the following minimum criteria must be met:

1. The nominated association must be in good standing with the NSSA.
2. The nominated association must not have received this award within the past ten years of being nominated.
3. Nominations must be received at NSSA headquarters no later than May 1st to be considered for the award.

Associations that are nominated but not selected will be included in the following year's group of nominees.
